For calls to mobile telephone subscribers' automobiles, trucks, etc.	"Operator" (Tell operator you wish to place a Mobile Telephone call.)	Give call to your Operator

ILLINOIS BELL TELEPHONE COMPANY

W. C. LATHEN, Manager

How to Use Your Telephone

(For Barrington only)

JUST FOLLOW THESE THREE SIMPLE RULES FOR LOCAL CALLS

1. Look in the directory if you're not sure of the number. If you do not find the number ask for "Information."

2. Listen for operator's "Number, please?"
3. Give number to operator. Always speak distinctly in an ordinary tone of voice directly into the mouthpiece.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company.

Charges for telegrams, cablegrams or radiograms placed by telephone will appear on your monthly telephone bill by arrangement with Western Union. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

"BEEP" TONE TELLS WHEN CONVERSATION IS BEING RECORDED

If you hear a brief, high, almost musical note on your telephone line while you are talking—a sort of gentle "beep" repeated every 15 seconds or so—you will know that the person to whom you are talking has a recording machine which is making a record of your conversation.

The signal is produced automatically by the device used to connect the recorder to the telephone line, and it is provided by the telephone company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. The "beep" signal stops when the recorder is disconnected.

Use of a recorder without this signal is unlawful.

"GADGETS" DON'T HELP

Don't spend money for unnecessary attachments to your telephone offered to "improve" the service. Some are harmless, but others actually hurt the service. If you think that your telephone isn't working properly, please call Repair Service.

If you have any special needs which your telephone does not seem to meet, call or visit our Business Office. We'll do our best to help you.

Rates to Some Nearby Places

The following table shows the Day Station-to-station rates to some out-of-town places frequently called from Barrington, Lake Zurich and Wauconda. The initial talking period is five minutes with the exception of rates of 30c or more, where the initial talking period is three minutes.

It's Easy to Dial

(In Lake Zurich and Wauconda)

JUST FOLLOW THESE THREE SIMPLE RULES FOR LOCAL CALLS

1. Look in the directory if you're not sure of the number.

2. Hold receiver to ear. Listen for dial tone—a steady humming sound. This is your signal to start dialing.
3. Dial the figures of the number as they appear in this directory. Pull the dial all the way around until your finger strikes the finger stop, then remove your finger and let the dial return by itself.

IF YOU NEED ASSISTANCE

Dial "Operator" if you need assistance. But remember, it is faster to dial yourself.

If for any reason you cannot see the dial, feel for the opening just below the finger stop. Pull the dial all the way around, release it, and the operator will answer.

Barrington, Ill.

TO CALL ANOTHER PARTY ON YOUR LINE

You can determine if the party you are calling is on your line by comparing his telephone number with yours. If the first three figures of the desired party's number are the same as the first three figures of your number, this telephone is on your line.

Party line customers when calling another party on their line, dial a special code number to ring the desired telephone—not the telephone number as listed in the directory for that party.

The Code Number Consists of three figures

1. The first figure is always "9".
2. The second is the last figure of your number.
3. The third is the last figure of the desired party's number.

EXAMPLE

Suppose your number is "7351" and you are calling "7352". The code number in this case is "912"—"9" (in all cases), "1" (the last figure of your telephone number, and "2" (the last figure of the other party's number).

HOW TO PLACE YOUR CALL

- Dial the code number.
- Hang up your receiver to allow the other party's bell to ring. Your bell will also ring at intervals indicating that the other telephone is ringing.
- When the ringing stops you will know the other party has answered.
- Remove your receiver.
- Proceed with conversation.

If your party does not answer within a reasonable period, remove your receiver momentarily in order to clear the line.

TO DIAL FROM A COINBOX LINE

To call a local number

- 1 Remove the receiver from the hook but do not deposit money.
- 2 Listen for the dial tone.
- 3 Dial the number wanted.
- 4 When the called number answers, you will hear the dial tone again, then promptly deposit one dime or two nickels. One nickel won't work.

For Calls between Lake Zurich and Wauconda

Proceed as above for making a local call, except dial "8" followed by the desired number.

To call Barrington and other out-of-town places (except as above)

- 1 Remove the receiver from the hook, but do not deposit money.
- 2 Listen for the dial tone.
- 3 Dial "Operator". When the operator answers, give the call to her; deposit money when the operator asks for it.

Useful Telephone Information

FOR YOUR PROTECTION

For your protection, telephone employees who visit the public, carry identification cards with their names and photographs.

If you have the slightest doubt about anyone who calls "from the Telephone Company," **ask to see his credentials.** Telephone people will be glad to show you their cards.

USE THIS DIRECTORY FIRST

When you're not sure of a number you are calling, use this directory. Guesswork may inconvenience you and an incorrectly called party.

Actually, a great many calls to "Information" are unnecessary, since they are for numbers listed in this directory. So, please don't ask our Information operators to look up numbers unless you're sure they are not listed in the directory.

For faster service—refer to your directory, using the number listed. Your cooperation is appreciated.

EMERGENCY CALLS

Illinois Bell operators get many urgent appeals for aid. People in distress throughout the company's territory call them for help 1,700 times a week.

When trouble strikes, many people turn automatically to the telephone operator—their only link with the outside. Through training and instinct, the operator acts fast in emergencies. Many times her speed and initiative have meant the difference between life and death.

It's comforting to know she's always within arm's reach when you need her.

YOUR TELEPHONE NUMBER

Occasionally, in the past, we've had to change some telephone numbers. It may, likewise, be necessary to do so in the future.

We're sorry we can't say to you, "We'll never have to change your telephone number." As a matter of fact, we don't like to change them and won't do it unless it is absolutely necessary.

EXTRA LISTINGS

Need an extra listing in the telephone directory? Names of other members of your household also can be listed in the telephone directory at a nominal charge. If you are a businessman, you will find it especially convenient to list not only the name of your firm but your own name as well. Alternate call numbers and after-office-hour listings help to assure receiving your customers' calls. Call our Business Office about extra listings. They mean better service for you, your friends and your customers.

CONCEALED WIRING

Telephone wiring can be as modern and inconspicuous as plumbing and electrical work if provisions for it are made before your home is built. Concealed wiring through the use of rigid, flexible or thinwall conduit enables you to have built-in telephone outlets—neat little plates similar in design to electrical outlets—wherever you desire. Your telephone company will be glad to consult with you without cost or obligation and make recommendations for built-in conduit. Just call our business office and ask for "Architects' and Builders' Service."

YOUR OPERATOR EXPLAINS OUT-OF-TOWN CALLS

"I'm your regular operator, and I can connect you with all out-of-town places. (See list on Page 2.)

"If you don't know the number, and it is not in this directory, call or dial "Operator" and ask for 'Information.'

"I will also be glad to give you information about calls to Long Distance points.

"Calls to Long Distance points are fast too. In about two minutes, on the average, you're talking to your party or have a report on your call. We invite you to use this dependable service.

"When you place out-of-town calls, I'll appreciate it if you'll give me the number of the party you are calling. It will help your call go through that much faster."

STATION-TO-STATION

Place Station-to-station calls when you merely want us to ring a telephone number. Charges begin when anyone answers at the telephone you call.

COLLECT CALLS

If you place a call "Collect," and it is accepted on a "Collect" basis by the person you are calling, it is paid for by him instead of you. The charges are the same as on a regular Station-to-station or Person-to-person call with the following exceptions: The rate is higher on Station-to-station collect calls to telephones in Illinois when the regular rate is 35 cents or less and to telephones outside of Illinois when the regular rate is 20 cents or less.

On calls within the State of Illinois: If the party you are calling doesn't accept the charges, a "Report Charge" applies—to be paid by you. No "Report Charge" is made, however, if you decide to pay for the call yourself.

OVERSEAS CALLS

You may talk by telephone to any one of more than 60 countries, territories and dominions throughout the world. Give the call to your operator.

SHIP-TO-SHORE CALLS

Certain ships in harbor or inland waters and on the Great Lakes or high seas may be reached by telephone. Give the call to your operator. Barrington, Ill.

PERSON-TO-PERSON

Make a "Person" call when you want to talk to a particular person, or to a particular telephone or department reached through a private switchboard. Rates are higher than "Station" rates, but charges do not begin until the person or department you want is able to answer.

If you call from a point in Illinois to another point in Illinois, a "Report Charge" will be made if the person you want cannot be reached and you ask the operator to cancel the call.

REDUCED RATES

Between 6:00 P.M. and 4:30 A.M., Monday through Saturday, reduced rates are in effect. Rates are also reduced all day Sunday and on Thanksgiving, Christmas and New Year's.

On calls within Illinois, the reduced rates apply to "Station" calls when the initial period rate is 45c or over and to "Person" calls when the initial period rate is 70c or over.

Reduced rates on calls to telephones outside of Illinois apply to "Station" calls when the initial period rate is 40c or over and to "Person" calls when the rate is 55c or over.

MOBILE CALLS

Two-way voice communication between cars, trucks, etc., and any telephone reached by the Bell System is now established as a new Bell System service. If you wish to place a Mobile Telephone call, call or dial your operator and tell her you wish to place a Mobile Telephone call.

What's the Number?

Look in the Directory

BEFORE You Call.

DON'T MISS IMPORTANT CALLS

— ANSWER YOUR TELEPHONE PROMPTLY

PLEASE,

Take Good Care of Your Telephone...

- Keep your telephone on a firm, safe support such as a desk or table.
- Keep the telephone cord straight. Twisting may injure the wire.
- Keep both telephone and cord dry when cleaning or decorating.
- Replace the receiver carefully. Banging it down may break it.

BE SURE OF THE NUMBER BEFORE YOU CALL

For That Home-To-Be...

PLANNED TELEPHONE SERVICE!

Telephone wiring can be as modern and inconspicuous as plumbing and electrical work *if provisions for it are made before your home is built.*

Concealed wiring through the use of rigid, flexible or thinwall conduit enables you to have *built-in telephone outlets* . . . neat little plates similar in design to electrical outlets . . . wherever you desire.

Conduit placed in walls and floors by the contractor at the time of construction, eliminates exposed wiring on baseboards and moldings and reduces the possibility of interruptions to your telephone service. Costs are nominal and the telephone company provides all wires and wiring work. You merely have the conduit installed.

Your telephone company will be glad to consult with you *without cost or obligation* and make recommendations for built-in conduit. Just call our business office and ask for "Architects' and Builders' Service."

ARCHITECTS, CONTRACTORS AND BUILDERS
ARE INVITED TO CALL UPON US FOR HELP IN
PLANNING TELEPHONE FACILITIES.

ARWELL
SERVICES

FREE INSPECTION

This confidential service includes an Investigation by laboratory trained experts who diagnose your problem and impartially recommend the proper method to best serve your interests — without obligation on your part.

EXTERMINATION AND LICENSED FUMIGATION

Through years of research our laboratories have developed the proper formulae for the immediate control and extermination of pests, vermin, etc., in industrial plants, apartment houses, homes, institutions, etc.

FLY CONTROL

A Free Inspection will quickly reveal which of several methods of fly control will best serve you.

TERMITE CONTROL — MOTHPROOFING

Written "Guarantee of Protection." Play safe — if you suspect Termites or Moths ask for free inspection.

PEST CONTROL PRODUCTS

Scientifically compounded. Available in convenient packages for those who prefer to do their own work.

complete

Buyer's Guide

As simple as

to use the "classified"

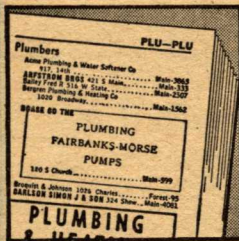

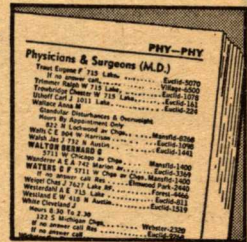

1 When you want a certain brand of goods—perhaps one that you've seen advertised.

Many trade marks are listed here—Goodyear Tires, Frigidaires, Chevrolets, the Insurance Company of North America. Under these, you'll find lists of dealers.

3 When you want the telephone number of a business or professional man.

Lists of names are shorter here, easier to scan. Instead of poring over long columns of "Smith" in the white pages, you usually spot "Smith C. G." at a glance under "Physicians."

2 When you must locate the nearest dealer or shop quickly.

For example, a water pipe is leaking. Turn to "Plumbers." Run down the list until you pick one with an address near you. His name and telephone number will be shown.

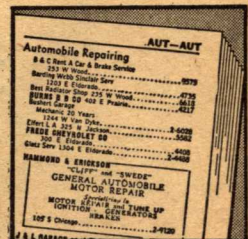

4 When you've forgotten the name of a shop, but remember its location.

You know, for instance, that there is a beauty shop near a certain corner. Look under "Beauty Shops" for one with that address. You'll find its name and telephone number.

5 When you don't know who sells an article or service you want.

Suppose your automobile needs overhauling. Look under "Automobile Repairing." You'll find the names of the shops that do such work.

REGULATIONS

APPLICATIONS

Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

ESTABLISHMENT OF CREDIT

In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

- (1) By furnishing references acceptable to the Telephone Company.
- (2) By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
- (3) By means of a cash deposit.

The Telephone Company may require the subscriber to increase the amount of the deposit at any time if, in its opinion, the charges billed against the subscriber are found to warrant such an increase.

Interest at the rate of not less than 5% per annum shall be paid by the Company on all deposits made for the purpose of establishing credit.

Service may be discontinued for failure to establish credit, as authorized above, within five days after the Company has served or mailed notice requiring the subscriber so to do. Where service has been discontinued for failure to establish credit as authorized by these Regulations, the regular restoral charge will be made and collected by the Company.

OWNERSHIP AND USE OF THE EQUIPMENT

Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus, or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

INTERRUPTIONS TO SERVICE

When requested by the subscriber, if service is interrupted for more than 24 hours, and for causes other than

the negligence or willful act of the subscriber, an allowance shall be made, at the minimum rate for the telephone facilities and class of service affected by the interruption, for such time as the interruption continues. No other liability shall attach to the Company in consideration of such service interruption.

TELEPHONE NUMBERS

The subscriber has no property right in the telephone number or any right to continuance of service through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

TELEPHONE DIRECTORIES

Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the Company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

USE OF SERVICE

Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

PAYMENT FOR SERVICE

The subscriber is required to pay, in accordance with the Telephone Company's established tariffs, collection and billing practices, all charges for exchange service and equipment, and for all toll messages or service rendered to his station, including all toll messages on which the charges have been reversed and accepted by any party at his station. All bills are due when rendered and are payable at the Telephone Company's business offices.

In the event that any sum due (except as provided below) is not paid on or before the 14th day after the issuance of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within seven days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied in accordance with the preceding paragraphs, but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge of \$1.50 will be made. In case service has been denied, in addition to the restoral of service charge, the subscriber will be required to pay all service charges up to the time of restoral of service. Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.
