

## *Your Instaguide to Instagram Icons!*

Username: \_\_\_\_\_ Password: \_\_\_\_\_

This icon lets you create photo and video stories to share with your followers. It also includes silly filters that give people flower crowns and puppy dog faces.

This icon allows you to send direct, private messages to other users when it appears under a user's photo. The icon also appears at the top of your screen and allows you to see your private messages.

This icon appears in two places. The first is under other users' photos. Click it to indicate you like someone's photo. It also appears at the bottom of your screen, and when you click it you can see all the activity relating to your own photos.

This icon appears under other users' photos. Click it to comment on that person's photo.

This icon appears under other users' photos. When you click it, it allows you to save the image to view later in a private collection. When the icon appears on your profile page, you can click it to view all the images you've saved.

This is the home icon; it always takes you back to your main Instagram feed.

This is the search icon. Use it to search for both people and topics that interest you.

This icon takes you to Instagram's camera feature, allowing you to take, edit, apply filters and post your own photos.

This icon takes you to your own profile on Instagram.
